Type: ROUTINE INSPECTION

PITTSBURG, KS 66762

Date: Dec-14-2010

3.4 (b) (4)

OUTDOOR HOUSING FACILITIES.

(b) Shelter from the elements. Outdoor facilities for dogs or cats must include one or more shelter structures that are accessible to each animal in each outdoor facility, and that are large enough to allow each animal in the shelter structure to sit, stand, and lie in a normal manner, and to turn about freely. In addition to the shelter structures, one or more separate outside areas of shade must be provided, large enough to contain all the animals at one time and protect them from the direct rays of the sun. Shelters in outdoor facilities for dogs or cats must contain a roof, four sides, and a floor, and must:

(1) Provide the dogs and cats with adequate protection and shelter from the cold and heat;

(4) Contain clean, dry, bedding material if the ambient temperature is below 50 [deg]F (10 [deg]C). Additional clean, dry bedding is required when the temperature is 35 [deg]F (1.7 [deg]C) or lower.

Outdoor shelters must have enough bedding that dogs can snuggle in. Temps are below 35 degs. Need to add more bedding to all outdoor shelters. The straw that is in for bedding now has deteriorated and became a few inches of chaff. Need to rebed shelters with new bedding that dogs can snuggle in. Affects at least 28 dogs. This will help keep dogs warm and health during the cold winter temps. Correct by 12-15-2010

This inspection and exit briefing was conducted with owner and Karl Thornton, ACI.

3.6 (a) (2) (i)

PRIMARY ENCLOSURES.

Primary enclosures for dogs and cats must meet the following minimum requirements:

- (a) General requirements. (1) Primary enclosures must be designed and constructed of suitable materials so that they are structurally sound. The primary enclosures must be kept in good repair.
- (2) Primary enclosures must be constructed and maintained so that they:
 - (i) Have no sharp points or edges that could injure the dogs and cats;

Primary enclosures must be kept in good repair and not have sharp points that could injure dogs. Need to repair or replace the outside wood walk board on the 3 east pens on the south side of the whelping kennel that has a few wood screws coming up through the wood floor.that dogs walk on. Affects 15 dogs. Repair or replace by 12-20-09.
